

**manage your
corporate practice
at high speed.**

When it comes to running a successful corporate practice, speed and accuracy are crucial. Fast Company is a simple, robust and cost-effective solution that makes it easy for you to manage and organize all aspects of corporate practice.

With Fast Company you only enter the corporate information once. Simply click your mouse to create your selected government forms, bylaws, resolutions, minutes, ledgers, registers, share certificates, and correspondence.

- Increase your efficiency by producing virtually every document needed for incorporation and maintenance of Ontario and Federal business corporations.
- Includes comprehensive support, upgrades and training.
- No obligation 30 day trial installation for new customers.

"I have been using Fast Company for about 25 years. I love the new design and new features. I love the Parent/Sub Tree option to create an organizational chart. I love the fact that you can add in your own fields to cater to your firm's needs and that all the information that you need is right at your fingertips. The documents are produced quickly and correctly. I think it is a great program and it saves me a lot of time!"

Edylee Corporate Services

Quick & Easy Data Entry

Data entry screens are clear, concise and uncluttered, enabling you to input your information for a new incorporation in about 15 minutes or effect a change in the corporation easily (i.e. produce the necessary forms, registers, resolutions, and other needs for that change).

Fast Documents

Quickly create the required government forms, bylaws, resolutions, minutes, ledgers, registers, share certificates and correspondence.

Powerful Reporting

Design and generate reports to your own specifications. For example, create a list of all active corporations and sort them according to fiscal year end. Then you simply instruct Fast Company to prepare the annual resolutions for that entire group of corporations.

Streamlined Registrations & Filings

Keep track of a multitude of corporate items and promptly generate reports with expiry dates across an entire corporate practice.

In Depth Corporate History

Fast Company maintains your complete corporate history, enabling you to view entries before and after changes to information as at a particular date. Entries can be viewed in chronological order, and documents produced as of the date of an earlier change.

Principals Database & Parent/Subsidiary Tree

Keep tabs on relationships. You can track individuals in the Principals Database and promptly generate a list of corporations in which a particular person is (or has ever been) involved. By using Fast Company's corporate Parent/Subsidiary Tree, you can graphically illustrate relationships between parent and subsidiary companies and shareholding details.

Flexible View of Corporate Data

View information the way you want it: by fiscal year end, share transaction dates, active corporations and more. Simply click to generate a Form 1 reflecting changes as of any particular date. Fast Company automatically applies its knowledge of corporate changes and generates professional and accurate documents.

For the fourth consecutive year, Fast Company has been awarded a Canadian Lawyer Readers' Choice Award by legal professionals across Canada who voted for their preferred practice management software.

Get started today with a no obligation 30 day trial. It's really that simple.

Since 1989, DoProcess has focused exclusively on serving the Canadian legal community. Today, DoProcess is the #1 provider of practice specific software for law offices in Canada. Over 15,000 practitioners trust DoProcess applications to manage more than 1.4 million transactions annually. We understand how hard legal professionals work and that's why everything we do is designed to help them complete transactions faster and provide superior service to their clients.
