"The Conveyancer is a user friendly and easy to navigate software for residential property transactions. The software has proven to be a huge time saver for me in my current position as a property paralegal providing services to approximately six to eight lawyers. Software updates are frequent and easy to install and DoProcess' client service and help centre are top notch. I sincerely recommend The Conveyancer provided by DoProcess to ensure smoother transactions."

Add, Track and Complete Undertakings with Ease

Draft and apply undertakings, then track their status. To follow up, simply run an advanced search of all files with outstanding undertakings for each record type, select the desired files, and produce the reminder letters to lenders and other lawyers.

Straightforward, Automated Financial Statements

Create your Statement of Adjustments, Statement of Accounts and Trust Ledger (Closing Cost and Accounting Statement) in no time flat. The automated expertise identifies appropriate entries and performs the necessary calculations for you.

Transaction Data Exchange (TDX)

Say goodbye to printing and faxing as the Transaction Data Exchange connects you to other firms using The Conveyancer, enabling you to share documents and messages simply and securely.

Client Information Request Form (CIRF)

Email the CIRF directly to your client, who will then complete it and return it to you through the TDX. When you upload the form, the information will be imported into the appropriate fields of The Conveyancer application saving you time and reducing human error.

Powerful Partnership Network

Access our network of industry leading partners including title insurers, mortgage instructing providers, and accounting programs from directly within The Conveyancer. This translates into significant cost savings with more efficient workflows and greater productivity.

Proprietary Databases

Keep information at your fingertips! Access proprietary databases to quickly populate documents or as quick reference for contact information.

Prevent Fraud with ID Scan Technology

Capture barcode information from scanned driver's licenses and provincial photo ID images, improving accuracy and confidence in client identification details by detecting discrepancies between the front of the license or photo card and the information contained in the barcode.

For the fourth consecutive year, The Conveyancer has been awarded a Canadian Lawyer Readers' Choice Award by legal professionals across Canada who voted for their preferred real estate practice management software.
